PHYSICAL DESCRIPTION/PROPERTIES.

Appearance : Brown liquid, may vary.
Boiling Point (760mmHg) : 100oC.
Corrosivity : Slightly corrosive.
Evaporation : With water loss product thickens.
Flammability : Non-flammable.
Flash Point (°C) : Not Applicable.
Odour : Brewed organic odour
Oxidation/Reduction : None.
pH : Approx. 5.2
Solubility (% by wt) : 100
Specific Gravity : 1.15 to 1.25
Stability : Very stable under normal temperature and light conditions.

HEALTH HAZARD INFORMATION.

Health Hazard : Non-toxic.

Health Effects and First Aid: No known long term health effects.

- Ingestion : Discomfort from swallowing large amounts may be alleviated by vomiting or drinking large volumes of water or milk. Swallowing small amounts usually require no treatment other than drinking generous volumes of water.
- Eye : Irrigate with generous volumes of water. No injury should be expected. If irritation occurs seek medical attention.
- Skin : Wash off with water as soon as is convenient. Follow normal, sensible hygiene practices.
- Inhaled : Not applicable.

Notes to Physician : Treat symptomatically.

PRECAUTIONS FOR USE.

- Personal Protection : Maintain normal personal cleanliness and hygiene.
- Ventilation : Natural air movement will remove mild smell.
- Flammability : Non-flammable.
- Storage : No special requirements

SAFE HANDLING INFORMATION.

- Spillage : Wash and dilute with plenty of water and/or remove with a mop/sponge.
- Caution : Spillages can be slippery.
- Disposal : Dispose of diluted wastes into a convenient soil location such as compost, garden beds, and lawns or around plants.
- Storage/Transport : Store in original container in cool, dark area. Avoid conditions of extreme temperatures. Prolonged exposure to direct sun light can damage ingredients and speeds settling of contents.
- Fire Hazard : None.
- Explosion Hazard : None.
- Other Information : This product is biodegradable. All components can be used by plants and/or soil organisms.
- Updated : Apr 2008
