

PPH-2 Cut Sheet

Features

- Suitable for wide range of applications: Hydroponics, Aquariums, Laboratory etc.
- 3.6-meter long cable for flexible placement
- BNC terminal allows direct connection to AMP-2 Sensor Board

Overview

The TrolMaster pH probes provide accurate and reliable monitoring on the pH of the water being monitored by the Aqua-x. The PPH-2 probe is a commercially rated probe and it connects to the Aqua-x via the AMP-2. It is intended to be used inline with existing pvc piping and also can be placed into an water tank.

T Product Specifications

Package Content

1 x Inline pH Sensor

Working Environments

Temperature 32-122°F, Humidity=90%

Package Dimensions

275mm(L) x 85mm(W) x 95mm(H)
